SEWALL'S FALLS BRIDGE PROJECT

The project to replace the Sewall's Falls Bridge is set to start next week. On Tuesday, August 4th the contractor, E.D. Sweet, Inc., will mobilize on site and begin clearing, grubbing, and layout to begin installation of the work trestle needed to remove the existing bridge. Removal of the bridge components will be done in stages over the next several months.

Construction of land-side bridge components, such as necessary abutments, will be done concurrently. Work on the new bridge structure will start in late 2015.

The new bridge is scheduled to be open to the public in late November 2016. Detailed information including progress and schedule of the bridge replacement project can be found at the project website www.sewallsfallsbridge.com.

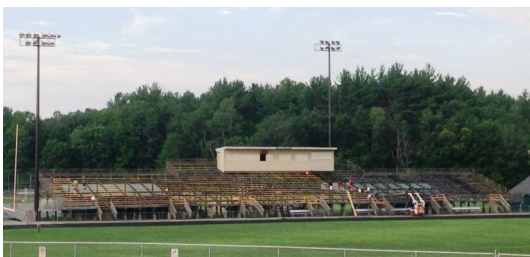

MAIN STREET PROJECT

Beginning Monday, we will see even more dirt as crews begin to demolish sidewalks, working from north to south. Road grading work will begin as well. Tuesday through Friday, the crews will be working from north to south installing light bases. On Wednesday, the first major addition to the west side will appear as the first layer of pavement will be laid from Centre Street to Capital Plaza.

MEMORIAL FIELD PROJECT

The Doane Diamond press box at Memorial Field was completely renovated last spring, and now Concord General Services' Public Properties Division is continuing Memorial Field restorations by upgrading the bleachers at the football stadium as well. Approximately 1,200 pieces of fifteen-year-old lumber were removed from the bleachers. The new bleachers will be constructed from new Southern Yellow Pine boards.

This project is scheduled for completion within the next couple of weeks before the football season begins.

CIP # 35 VILLAGE/FISHERVILLE ROAD RECONSTRUCTION PROJECT

This past week the contractor completed the drainage work at Snow Street, replaced four valves on the 14" water main and removed the asphalt and concrete road bed in preparation for upcoming drain work.

Drain work on the next section of roadway will begin next week with the installation of a headwall and a new drainage run from the area of Hoyt Brook heading southerly on Village Street.

One lane, two way traffic will be maintained through the work zone. Commuters can expect delays during construction hours.

available at Rundlett
Middle School.

For more information,
visit us at
www.concordnh.gov or
contact the Concord
Police Community Re-
source Unit at 225-8600
extension 3738.

DONATIONS RECEIVED

The very generous parishioners of Wesley United Methodist Church have been donating items on the wish lists of local agencies that work with people in need in our community. The Concord Human Services food pantry is one of the fortunate beneficiaries of these donations which were distributed this week.

Gail Page, a parishioner very actively engaged in this project, kindly delivered laundry detergent, dish soap, deodorant, paper products, and peanut butter to our office. We want to thank all of those who contributed these much needed items that will truly help those we serve.
